CONDITIONS OF SALE.

Please Read Sale Terms Before Bidding.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing **within 30 days of the date of the sale.**

Coins and medals are sold at so much per **PIECE**, and no lot will be separated. You cannot buy a few pieces out of a lot but must buy all of it. The auctioneer will accept no bid under 10 cents to start a lot where that lot contains only one piece; nor will he accept any advance under 5c on any lot containing but one piece; after the price has reached \$2. no advance under 10c will be accepted on any lot containing one piece; after \$5.00 the bid must advance 25c each time; after \$10 no bid under 50c.

Our rules regarding lots containing more than one piece will remain unchanged and the same as before.

Auction sales are **strictly for cash**. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

Be sure you bid on the lot you wish to buy. We cannot correct such errors.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, **THOMAS L. ELDER.**

Important Notice. We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. **Our records are final.**

A List of Prices realized at the sale will be sent on receipt of \$1.00. Plate Catalog with twenty Photographic Plates for \$5.00.

INTRODUCTION.

The late Dr. George Alfred Lawrence was born at Lawrence, California, a settlement named for his ancestors, on June 6th, 1869. As California was the principal seat of the coinage of private gold issued between 1849 and 1855, it was natural that the Doctor should specialize in the American Private Gold Coinages.

This family of Lawrences came originally to America in 1635, thus taking rank amongst the oldest in the country, and had among its members those who performed military services in the War of Independence. Dr. Lawrence belonged to the Sons of the American Revolution and also to the Society of California Pioneers.

His scholastic record was unusual. For one thing, he was a member of the first class to graduate from Leland Stanford University. In 1897 he received his degree of Medical Doctor from the College of Physicians and Surgeons, of the University of Michigan. More recently Columbia University honored him with degrees of Master of Arts, Bachelor of Laws and Doctor of Philosophy. In addition, he was a life member of the New York Athletic Club, the Fencers' Club, a member of the Army and Navy Club, the Apawamis Club and other organizations, and held a Lieutenant-Colonelcy in the United States Medical Reserve.

The very remarkable Collection of Coins and Medals relating to the Knights of St. John and Grand Masters of Cyprus, Rhodes and Malta, may be traced to the fact that Dr. Lawrence was himself a mason, and had been recently honored with the highest possible degree, the "33rd." Among the Knight Templars he held the office of "Grand Surgeon." He wrote numerous books on medicine, particularly on his specialty of Neurology, and was one of the few Americans holding honorary membership in the Authors Club of London.

As one considers the wide variety of Coins in the Lawrence Collection, he is impressed by the preponderance of Historical and Artistic Coins. Dr. Lawrence was no mere collector of dates on coins, but his tastes were esthetic and artistic, so the archaeological and historical types prevail throughout this catalogue. In the case of the great collection of coins relating to the early days of gold discovery in America, personal sentiment, and love for the state of his birth, seem to have ruled in the pursuit of this branch of his hobby.

The collection of Ancient Coins is both interesting, important and extensive, and includes many notable and rare portrait and historical pieces in gold, silver and bronze.

In Ancient British Coins we note two gold staters of Cunobelinus, the Cymbeline of Shakespeare. In Greek, Egyptian and Roman Gold Pieces there are early examples of Lydia, Carthage, Syracuse, Philip II and Alexander of

Macedon, Arsinoe, Julius Caesar, the Vibia Family, Caligula and Augustus, Claudius I, Nero, Vespasian, Vitellius, Domitian, Trajan, Hadrian, Faustina I, Antoninus Pius, Lucius Verus, Diocletian, Tacitus, Constantius II, Theodosius and Valentinian II. These are followed by the gold of the Byzantines, the Merovingians and the Kushans.

Greek silver coins are offered from the Sixth Century before Christ to and including the period of Roman domination. Among these are many remarkable examples from Athens, Corinth, Egypt, Carthage, Sidon, Terina, Macedon, Syracuse, Thebes, Metapontum, Gallia and so on.

Judea is represented by three fine shekels, two of them of Simon Macabaeus, as well as fine bronze coins of various rulers.

There is a line of Greek bronze coins, together with a fine portrait bronze of Cleopatra VII, Marc Antony's famous paramour.

Many very fine and beautiful coins of Republican Rome are noted, and an especially fine lot of the heaviest bronzes, weighing from one to ten ounces apiece of the third and second centuries before Christ.

The Roman consular silver coins number several hundred, which clearly show the strong influence of early Greek art and Greek artists, in the splendid portrayal of types typifying the gods, goddesses, the military scenes, the customs of the day, and the mythology of ancient Rome, depicted in this almost indestructible form. Many original personal portraits of heads of early Roman families adorn the obverses.

When we come to the Roman Imperial Series we find an offering of several hundred varied lots, with many beautifully preserved pieces, showing prized portraits by distinguished artists of the ancient world, many of which are but seldom equalled in modern coins.

We note here important coins of Julius Caesar, Marc Antony and Cleopatra, Brutus, Augustus, Otho, Vitellius, Vespasian, Titus and the other great Caesars, Empresses and Tyrants, including a coin of Marius, who lived in A. D. 267 and ruled but three days! This series extends down to the end of the Empire, furnishing to moderns "contemporary monuments" obtainable in some cases by any collector of the most humble means.

This collection of Ancient Coins is so extensive and important that the entire first session of the sale, with lots in the catalogue listed from No. 1 to 510, inclusive, will be devoted to it.

The Second Session of the Sale consists of a wide variety of issues from all quarters of the world, commencing with a fine collection of Mediaeval and Modern Coins, in gold, platinum, silver and bronze.

This section contains the remarkable collection of the Coins of the Crusaders, and of the Knights of St. John, issued for Antioch, Tripoli, Achaia Cyprus, Rhodes and Malta. If there is a better or larger collection of the Cyprus, Rhodes and Malta coins, we have yet to hear of it. The Maltese part

contains many coins we have not seen or offered before, with a remarkable set of Gold coins dating from the Sixteenth Century.

That war and siege have occupied a large portion of the business of past ages and peoples, is proved by the large variety of curious pieces in this collection, struck during siege of towns and cities, during the last four hundred years. Some of these are square or uniface, and not a few were struck from the private silver plate furnished by the defenders.

The English, Irish and Scotch Coins date from Ethelred II, and include rulers, William I, the Edwards, Edward Sixth, Elizabeth, Mary Queen of Scots, Charles I and II, the Commonwealth, Oliver Cromwell and later rulers down to the present, together with some rare English pattern coins in various metals.

Interspersed among the large assortment of European and Oriental pieces are fine mediaeval examples, including the remarkable gold Augustale of Frederick II, the handsomest portrait gold coin of the middle ages. We note gold coins of Portugal and Ferdinand and Isabella and platinum coins of Russia.

In American Coins the celebrated Pine and Oak Tree pieces will interest many collectors, as well as two issues of Lord Baltimore, struck for the Maryland Colony about 1659; and two examples of silversmith Chalmers, of Annapolis, who coined in 1783. There are other fine and rare Colonial and Continental issues, with those of New York and Vermont, and a fine set of the pattern coins of George Washington.

Of the greatest interest from the standpoint of the collectors of American Gold Coins is the great collection of American Private Gold Coinages, struck between the years 1831 and 1861.

We have listed in this sale no less than **Twelve Fifty-Dollar Gold Coins**, or "Slugs". Among these is the **unique proof \$50 of Kellog & Company**, which the cataloguer sold some years ago for the Kellog heirs, which rarity passed into the hands of Dr. Lawrence. There is a magnificent example of the rare **Wass Molitor & Co. \$50 piece**.

No attempt can be made here to write about the entire set of these private issues of American gold, and only a few can be referred to.

Mention must be made of a few of the greatest rarities. Among these are the **\$10 Coin of Dubosq & Company**, so rare that we have not found a record of its sale at auction in the last thirty-five years; in fact it may have never been offered before at auction. The **\$5 of Shults & Company** is to our minds just as rare, while the **\$5.00 Massachusetts & California piece in gold** is another great numismatic prize. There is a **Cincinnati Mining & Trading Co. \$20**, offered in copper, and a **\$20 Wass Molitor & Company in Gold**, a variety with an extra large head of **Liberty**, one of two known examples, the first in our sales. There is a **Moffat & Co. Oblong Bar**, a **Complete Set of Mormon Coins from \$2½ to \$20**, some **Rare Baldwin coins** and additional **Wass Moli-**

tor issues from \$5 to \$20, an Oregon Exchange Co. \$5, Miners Bank \$5, Norris Grieg & Norris \$5, a fine lot of Colorado Gold Coins, and Bechtler Issues of North Carolina. There is a very large collection of the tiny Half and Quarter Dollar Gold Coins, issued in California, one of the most important in existence. A set of California Gold Bank Notes, a few U. S. Gold Coins of the regular series, and some medals bring this important sale to a close.

The Collection is offered by order of the Executor, Curt Von Boetticher, Jr., Esq., at absolute sale.

Your attention is respectfully called to our sale terms, and to the special notices in this catalog. This is a regular auction sale, where every lot will change hands and the highest bidder will obtain the lot. Please don't write us afterwards that you did not read the sale terms. We cannot accept that explanation of errors on the part of bidders.

Please send us early some bids for the sale, or attend it personally if possible.

Yours truly,

THOMAS L. ELDER,

Cataloguer, President and Treasurer of
THE ELDER COIN & CURIO CORPORATION.

New York, May 14th, 1929.

COLLECTORS, PLEASE READ.

This sale is divided into three sessions. There will be no rush to knock down lots, and the cataloguer reserves the right to decide on any controversy in the room arising over the ownership of a lot. If any man who is trying to bid as a lot is knocked down, can prove his claim, even though the lot has been "Sold" by the auctioneer and the buyer's name called, the lot will be put up again and resold. We ask any collector who is unwilling to abide by these terms not to bid at the sale. We do not desire his participation and his bids will be ordered refused by the auctioneer.

Collectors must examine lots on delivery, as no corrections can be made after the lots leave the desk. Our Sale Records are Final.

Please go over your catalog and mark the prices you want to pay for the lots, to avoid confusion when they are offered, and be certain to bid on the right lot, as we will not be responsible for bids sent us on the wrong lots, and we find this is done by several collectors at every sale. We twice advertised in each catalog that bids are made not by the entire lot but by the piece, and collectors who insist on bidding by the entire lot must stand the consequences and pay for their errors.

Terms are cash and strangers at the sale must give us certified checks or furnish cash. No deliveries will be made during the progress of the sale and no lots shown.
